

CenUSA Bioenergy invites you to participate in a free, online course:

Introduction to Perennial Grasses for Biofuels

Topics include:

- An introduction to the CenUSA project
- Perennial grasses as an option for biofuel feedstock
- Perennial grass physiology, growth and development
- Establishment of perennial grasses
- Pest and disease management
- Stand management
- Biochar as a useful co-product

Why should you take this course?

- Learn about perennial grasses and how they are developed as a biofuel
- Earn badges for your professional portfolio
- Free and open to the public
- Self-paced – complete it on your own time

How do I start taking the course?

To get started with the course go to the [CenUSA MOOC](https://cfaesmoodle.osu.edu/course/view.php?id=11) and click "**Create A New Account**"!
